DIFFERENTIAL COSTS

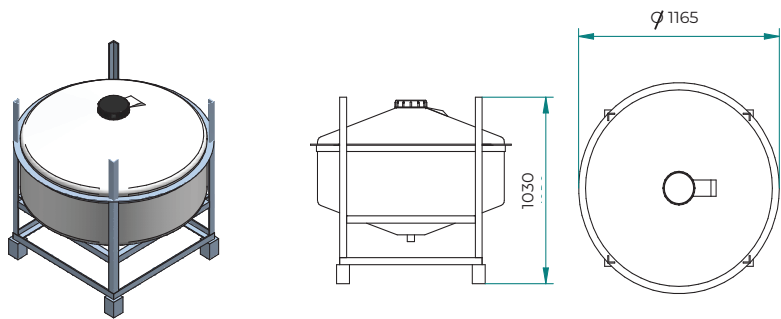

900 LITRE TANK-ON-STAND

- o R20 per litre
- o Replacement tank 30% of tank-on-stand cost

450 LITRE TANK-ON-STAND

- o R37 per litre
- o Replacement tank 25% of tank-on-stand cost

The differential costs used in both costing models are based on the price of the standard short-leg one-hoop stand. 900 litre tank stack-stands require extended legs and an additional hoop.

BENEFITS OF OUR PORTABLE STACKABLE POLYETHYLENE (PE) TANKS

Manufactured and supported by local industry.

Stackable tanks maximise the use of floor space.

Polyethylene (PE) tanks 450 and 900 litres.

Robust galvanised steel stands with nesting support structure.

Standard “one size fits all” stand.

Damaged tanks easily replaced i.e. forklift punctures.

Stands stackable both vertically or staggered.

450 and 900 litre tanks portable and stackable when full.

Tanks demonstrate excellent hygienic qualities.

900 litre tank stack-stands have extended legs and an additional hoop.
